

# Georgia ImageTrend Elite Program

## A Factsheet

The Insurance and Safety Fire Commissioners Office has been afforded the opportunity to provide to all registered fire departments in the state of Georgia the use Imagetrend Elite.

- This system is a complete fire RMS (Records Management System) that allows fire departments to go paperless for data collection and incident reporting.
- This secure web-based system provides for advanced fire operations including staff and equipment management at any time, from anywhere.
- This system is ideally suited for state and local-level administrative reporting data management, while providing local data submission and reporting capabilities.
- ImageTrend Elite is a simple, centralized data repository for all fire department data to seamlessly integrate NFIRS reports, inspection data, response plans and operational function data.
- **Easy to use NFIRS form** is designed to increase efficiency and minimize errors by utilizing data entry shortcuts. This will assist in creating uniformity in records.

### Customizable

- Modules
- Checklists
- Printable Reports
- Permissions

### Track Inventory & Maintenance

The inventory module allows the tracking and management of physical assets on a high-level or detailed basis.

#### Tracking
